

CNC LaserTree CNC Router

Description

LaserTree CNC Router is a high-precision, high-speed CNC router. It is designed for cutting and engraving a wide range of materials, including wood, metal, and plastic. The router features a powerful laser cutting head and a robust metal frame, ensuring accurate and consistent results.

The router is equipped with a variety of cutting tools, including end mills, drill bits, and engraving bits. It also features a built-in dust extraction system to keep the work area clean and safe. The CNC router is easy to use and maintain, making it a great choice for both professional and hobbyist users.
